Who Completes the Trustees' Financial Summary (TFS):

Each elementary, high school, and K-12 district and full service Special Education Cooperative must file an annual TFS. All elementary, high school district, K-12 and full service Special Education Cooperative must complete a Project Reporter Code Report, a Balance Sheet for each fund, a Schedule of Revenues, Expenditures and Change in Fund Balance for each fund, and a Detail Expenditure Report.

What Information to Report:

Report amounts from the accounting records for the fiscal year **after all necessary fiscal year-end adjusting and closing entries have been properly recorded.**

Where to Find Help for Year-End Adjustments and Closing Procedures:

Refer to sections of the [School Accounting Manual \(SAM\)](#) entitled 7-0300 Year-End Closing Procedures, 7-0400 Cash to Accrual Worksheet-Columnar Accounting Systems, and 7- 0500 Cash to Accrual Worksheet- Double Entry Accounting Systems. These sections provide basic year-end accounting procedures and methods for converting the district's records from cash basis to accrual (GAAP) basis. The procedures will assist clerks/business managers in closing the books and preparing the TFS.

Blank Forms:

To print out a blank TFS form, login to the MAEFAIRS screen, go to Reports, hover down to TFS, then click TFS and choose the Blank Report option under the heading Select Report Type.

NOTE: Only one district may be printed at a time.

Full-Service/Special Education Cooperative Hosts:

Full service special education cooperatives must file a TFS separately from the host district's TFS. Cooperatives must report activity in the following funds:

- Transportation Fund (310)
- Retirement Fund (314)
- Miscellaneous Programs Fund (315)
- Interlocal Agreement Fund (Fund 382)
- Payroll Clearing Fund (386) Balance Sheet
- Claims Clearing Fund (387) Balance Sheet

Full service special education cooperatives are also required to complete the Schedule of Changes in Fixed Assets, the Depreciation and Net Fixed Assets Schedule, and Schedule of Changes in Long-Term Liabilities

Interlocal Agreement / Cooperative Fund (Fund 82):

If the district is the host of a full service special education cooperative, report the Interlocal Agreement/Cooperative Fund (382) on a separate TFS for the cooperative. Report the Interlocal Agreement/Cooperative Fund (82) for the elementary and high school like any other fund.

Additional Funds:

If the district used new funds in the past year, use the drop-down box to select the new fund when completing the TFS report.

NOTE: New funds **MUST** be authorized funds from the Chart of Accounts, section 3-0200 of the School Accounting Manual.

Student Extracurricular Activities Fund (Fund 84):

MUST BE REPORTED. Report student extracurricular accounts held by the county treasurer and those accounts outside the county treasurer (e.g., separate checking accounts) as Student Extracurricular Activities Fund (84) financial activity. If the combined elementary and high school district shares one extracurricular fund for both districts, combine all activities and report it on either the elementary or high school district's TFS.

NOTE: Usually the high school district's TFS is used.

Districts That Will Become K-12 Next Year:

Districts that will become K-12 in a subsequent year must report **separately** for the elementary and the high school for current year-end. The K-12 district is created effective July 1 and the activities of a K-12 district will be reported on the **subsequent year's TFS**.

Non-Operating Districts:

First Year Non-Operating Fund (19):

Establish the Non-Operating Fund (19)

1. The district will need to send a letter to the county treasurer requesting the Non-Operating Fund (19) be opened effective June 30, 2018. Opening the fund effective for FY 2017-18 allows the district to record residual equity" transfers-out" of operating funds and residual equity transfers in to the Non-Operating Fund (19) at the end of FY 2017-18.
2. Use revenue code 9710 – Residual Equity Transfers In to record fund balances transferred in from other funds, except the Miscellaneous Programs Fund (15) or the Debt Service Fund (50), which should not be transferred to the Non-Operating Fund (19). [20-9-505, MCA](#)
3. The district should use Program 999, Function 9999, and Object 971 for transferring fund balances out of every operating fund except the Miscellaneous Fund (15) and/or Debt Service Fund (50). More information on transferring balances may be found in the School Accounting Manual, Section 5-0520.20.
4. Balances in the Miscellaneous Programs Fund (15) and Debt Service Fund (50) should NOT be transferred to the Non-Operating Fund (19). Those balances should be left intact, as the Miscellaneous Programs Fund (15) and the Debt Service Fund (50) are authorized for non-operating districts. If your district has a Miscellaneous Programs Fund (15) and Debt Service Fund (50), continue to report financial activity while in non-operating status. [20-9-505, MCA](#)
5. The FY 2017-18 TFS should reflect all expenditure and revenue activity across all operating funds, as well as residual equity transfers-out of the ending balances of these operating funds. The FY 2017-18 TFS must reflect residual equity transfers-in to the Non-Operating Fund (19).

6. If cash balances in each operating fund are not transferred to the Non-Operating Fund (19) as of June 30, 2018, then each operating fund (except Miscellaneous Programs Fund (15) and Debt Service Fund (50)) would need to reflect a "Payable to Other Funds" (liability) in the amount of the fund balance. Record a "Receivable from Other Funds" (asset) in the Non-Operating Fund (19) for the cumulative amount of all the "Payable to Other Funds" recorded in the operating funds.
7. For FY 2018-19 prepare budgets for the Non-Operating Fund (19) and Debt Service Fund (50) if applicable. The Non-Operating Fund (19) budget may be used to budget for such items as tuition obligations to other districts, transportation of resident pupils, maintenance of district-owned property, and any other non-operating school function considered necessary by the trustees or required by law.

More information on transferring balances for a non-operating district may be found in the School Accounting Manual, Section 5-0520.20.

Complete the TFS as usual, including:

- Project Reporter Code Report
- Balance Sheets for Miscellaneous Programs Funds (15), Non-operating Fund (19), and Debt Service Fund (50)
- Schedule of Changes in Fixed Assets
- Schedule of Changes in Long-Term Liabilities
- Schedule of Revenues, Expenditures, and Changes in Fund Balance for all funds (01, 10, 13, etc.) including Non-Operating Fund (19) (report the balance transferred using the accounts described above)
- Detail Expenditures Report

Second and Third Year of Non-Operating Status:

If the school district becomes operating in the second or third year, contact Nica Merala, nmerala@mt.gov, or (406) 444-4401, at the OPI for specific instructions. Otherwise complete the Project Reporter Code Report, Balance Sheets for the Miscellaneous Programs Fund (15), Non-Operating Fund (19), and Debt Service Fund (50) including the Schedule of Changes in Fixed Assets, Schedule of Changes in Long-Term Liabilities, and the Schedule of Revenues, Expenditures, and Changes in Fund Balance for the Miscellaneous Programs Fund (15), Non-Operating Fund (19), and Debt Service Fund (50) and the Detail Expenditures Report. Budgets are required in the second and third year for non-operating districts.

Where to Send Completed Reports:

Send completed forms **to the County Superintendent by September 15.** [20-3-209, MCA](https://mca.mt.gov/20-3-209)

BALANCE SHEET

BALANCE SHEET LINE BALANCES:

For each line on the Balance Sheet, combine the balances of the appropriate accounts as listed in the instruction detail. For example, in Line 06-Other Current Assets (190- 210), enter the sum of the balances recorded in balance sheet accounts numbered 190 through 210 for each fund. Districts using a manual columnar accounting system should enter balances shown in column (d) of the Cash to Accrual Worksheet - Columnar Accounting Systems Section 7-500 in the SAM.

ASSETS AND OTHER DEBITS:

Line 01. Cash and Investments (101-119) Less Warrants Payable (620):

Enter cash and investments for each fund held by the County Treasurer or by the district on June 30. Include cash held in separate bank accounts, investment accounts, and petty cash accounts. Include Interest Receivable on Investments on this line. If the district does not use a payroll and claims clearing

fund, subtract the June 30 balance of Warrants Payable (620) in that fund from the sum of accounts 101 through 119 and enter that total. If the district uses a payroll and/or claims clearing fund, warrants payable are recorded only in those clearing funds, so the district will not have a Warrants Payable (620) balance to subtract from Cash and Investments on this line.

In the Payroll Fund (86) and Claims Fund (87) only, include the balance of accounts 101 through 119 in Line 01-Cash and Investments (101-119). Enter the balance of Warrants Payable (620) on Line 23-Warrants Payable (620).

NOTE: REPORTING TAXES RECEIVABLE

Taxes Receivable by fund must be entered if amounts are material to the fund. Taxes receivable as of June 30 are required to be reported on the County Treasurer's June report to each district. Taxes receivable, if material, should be entered on Line 02-Taxes Receivable-Real and Personal (120-149) and Line 03-Taxes Receivable-Contested (150-159). The total of lines 02 and 03 should also be reported in the total of Line 36-Deferred Inflows (680). See Section 5-0220 in the SAM for further information. There may be other items included in Line 36-Deferred Inflows (680)

Line 02. Taxes Receivable-Real and Personal (120-149):

Enter the real and personal property taxes receivable for each fund as of June 30, as reported to the district by the County Treasurer. See section 5-0220 and account definitions on section 3-0400 of the SAM. Include the amount from Line 02-Taxes Receivable-Real and Personal (120-149) in the total on Line 36-Deferred Inflows.

If the district recorded allowances for uncollectible taxes, subtract the balances in accounts 129 Allowance for Uncollectible Taxes-Real Property, 139 Allowance for Uncollectible Taxes-Personal Property, and 149 Allowance for Uncollectible Taxes-Other, from the total of taxes receivable accounts and enter the NET amount on Line 02-Taxes Receivable-Real and Personal (120-149) and on Line 36- Deferred Inflows (680).

Line 03. Taxes Receivable-Contested (150-159):

Enter the amount of **contested taxes receivable** for each fund outstanding as of June 30 as reported to the district by the County Treasurer. See section 5-0200 Revenues and Receivables and account definitions in section 3-0400 Balance Sheet Account Definitions in the SAM. Include the amount in Line 03-Taxes Receivable-Contested (150-159) in the total on Line 25-Deferred Inflows (680).

If the district recorded allowances for uncollectible contested taxes, subtract the balance in Allowance for Uncollectible Taxes - Contested Taxes (159) from the total of taxes receivable accounts and enter the NET amount on Line 03-Taxes Receivable- Contested (150-159).

Line 04. Receivables from Other Funds (160-179):

Receivables from other School Districts (such as between a high school and elementary) are included on Line 05-Due from other Governments (180).

The use of Interfund Loans Receivable From Other Funds (160) and Due From Other Funds (170) is limited. Due from Other Funds is used to record the amount receivable on June 30 for goods and services provided by one fund, usually a proprietary fund, to another fund of the same district. Line 45. Assets Held in Trust (980):

Subtract Line 35-Total Liabilities and total of reserves [Line 37-Reserve for Inventories (951), Line 38-Reserve for Encumbrances (953) and Line 39-Reserve for Endowments (954)] from Line 20-Total Assets and Other Debits. The amount for Line 45 should automatically calculate. This line should be greater than or equal to zero. If the amount is zero or negative, the district must explain to the auditor how this deficit will be eliminated. This amount must equal the amount reported as fund balance for budget, TFS line 48 on the ensuing year's budget form.

Line 46. TIF Fund Balance for Budget (973):

Section 7-15-4291, MCA and 20-9-104, MCA directs districts that receive unused tax increment financing remittance distributions to retain these remittances in the year of receipt to be used for the purpose of property tax reductions in the ensuing year. When these remittances are recorded into the MAEFAIRS system they are considered as a portion of the district's fund balance. The OPI has created *line 46 TIF Fund Balance of Budget (973)* to identify this portion of the fund balance to be used specifically as property tax reductions and/or as operating reserves when recorded in the district's general fund. See sections Section 7-15-4291, MCA and 20-9-104, MCA for details.

Line 47. Non-Materialized Excess Levy Fund Balance for Budget (974):

Section 20-9-314, MCA directs the return of district general fund property tax levy over collections when related to non-materialized anticipated enrollment increases. When a non-materialized situation occurs the OPI determines the amount of excess levy and informs the district that they need to retain at least this amount in fund balance to be used in property tax reduction in the ensuing year. The OPI has created *line 47 Non-Materialized Excess Levy Fund Balance for Budget (974)* to identify this portion of the fund balance to be used specifically as property tax reductions. See section 20-9-314, MCA for details.

Line 48. Fund Balance for Budget (961- 970):

Subtract Line 35-Total Liabilities and total of reserves (Line 37-Reserve for Inventories (951), Line 38-Reserve for Encumbrances (953) and Line 39-Reserve for Endowments (954)) from Line 20-Total Assets and Other Debits. The amount on Line 48 - Fund Balance for Budget (961-970) should automatically calculate. This line should be greater than or equal to zero. If the amount is zero or negative, the district must explain to the auditor how this deficit will be eliminated. This amount must equal the amount reported as fund balance for budget, TFS line 48 on the ensuing year's budget form.

Line 50. Invested in Capital Assets, Net of Related Debt (921):

(Rare) Line 50-Invested in Capital Assets, Net of Related Debt, (921) applies to proprietary funds (70-

79). Enter the balance of Invested in Capital Assets, Net of Related Debt (921) **only** in proprietary type funds (70-79). See account definition in section 3-0400 of the SAM.

Line 52. Total Fund Balance/Equity:

Enter the total of Lines 37 through 51 on Line 52-Total Fund Balance/Equity. Line 52- Total Fund Balance/Equity on the Balance Sheet must equal the ending fund balance on the Schedule of Revenue, Expenditures and Changes in Fund Balance.

Line 53. Total Fund Balance/Liability:

Enter the total of Line 35-Total Liabilities and Line 52-Total Fund Balance/Equity on Line 53-Total Fund Balance/Liability. Line 53-Total Fund Balance/Liability should equal Line 20-Total Assets and Other Debits.

**SCHEDULE OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE
REVENUES AND OTHER FINANCING SOURCES**

Preliminary Budget / TFS Worksheet:

These worksheets are optional and may be used to roll up expenditures. These worksheets may be found on the OPI web page at:

<http://opi.mt.gov/Leadership/Finance-Grants/School-Finance/School-Finance-Budgets>

For revenue and expenditure account definitions, see section 3-0500 and 3-0600, Chart of Accounts in the SAM.

REVENUES

Revenue accounts are listed by two-digit fund number and four-digit source code. Enter actual revenues, including cash revenues and revenue accruals. Do not include revenue accrued last year. Project reporter codes are used in the Miscellaneous Programs Fund (15), in budgeted funds to report Budget Amendment and Cash and/or Budget Transfers between funds, and may be used in the Endowment Fund (81). They are also recommended for the Building Reserve Fund (61) and required for School Safety Transfers. The total of revenue accounts 1000 - 9710 is calculated at the end of the revenue section for each fund.

Additional Revenues and Expenditures: If a fund's revenues or expenditures do not fit the codes provided, use the blank lines at the end of each fund's Schedule of Revenue, Expenditures and Changes in Fund Balance to report those revenues or expenditures.

Revenue Accounts (1000- 4999)

Considered current revenues as reported on this schedule.

TIF Distribution Revenues (1291 and/or 1292)

Any TIF revenues that must be used to lower property taxes must have been deposited into a fund that had a levy during prior fiscal year and will also have a levy in ensuing year. If your district received TIF distribution revenue call OPI for instructions.

Revenue Accounts (5000- 9710)

Considered Other Financing Sources, Prior Period Revenue Adjustments, and Residual Equity Transfers In.

**Federal or State Grant Funds Received from Cooperatives:
Revenue Code 5700**

Resource Transfers from Other School Districts or Cooperatives is used when a school district receives lump sum federal or state grant money through a cooperative rather than receiving the money directly from a state or federal agency. Use expenditure program in the 300 or 400 series for this type of revenue.

Revenue Code 5710

Special Education Resources Transferred from Other School Districts or Cooperatives is used when a school district receives lump sum payment from another school district or cooperative for the provision of special education services. Use expenditure program 280 for this type of revenue. Refer to the account definition in section 3-0500 of the SAM.

Revenues must be reported using a fund number and a four-digit revenue source code (example, 01- 2110). Do not roll up revenues.

EXPENDITURES AND OTHER FINANCING USES

Expenditure object accounts (100- 889)

Considered current expenditures as reported on this schedule.

Expenditure object accounts (892- 972)

Other Financing Uses, Prior Period Expenditure Adjustments and Residual Equity Transfers Out and are included on the Schedule of Revenues, Expenditures and Changes in Fund Balance, following current expenditures.

Expenditure accounts are listed by fund, subfund, school code, program, function, expenditure object, and project reporter code (where appropriate). Report actual expenditures, including cash expenditures (mandatory), accrued expenditures (mandatory), and encumbrances (optional). On the form, account numbers that contain 'X' indicate the balances should be combined ('rolled up') into one balance at the level of detail indicated by the number to the left of the 'X.' The 'X' stands for the numbers zero through 9. Refer to the SAM for a valid expenditure account list.

Example:

_01 1XX 1XXX 1XX Personal Services-Salaries means:
 _01 General Fund
 1XX Programs 100 through 199 Regular Education Programs
 1XXX Functions 1000 through 1999 Instruction
 1XX Expenditure Objects 100-199 Personal Services – Salaries

The sum of expenditures charged to accounts _01-100-1000-100 through _01-199- 1999-199 should be reported as one amount on the 01 1XX 1XXX 1XX expenditure line provided on the schedule.

Any additional expenditures reported, **must** be rolled up the same way -- by fund, program, function, and expenditure object USING THE FOLLOWING INSTRUCTIONS.

"ROLL-UP" INSTRUCTIONS:

MAEFAIRS will not allow the use of incorrect combinations of coding in each fund. If a coding combination is not accepted in MAEFAIRS, recode to an acceptable coding combination.

Fund Code: Select fund codes using two digits (e.g., 01, 10, 11 . . .)

Subfund: Required in the Building Reserve Fund (61).

School Code: Required starting in FY 2019 TFS reporting for districts with enrollments of 1,000 or greater. The school code is the OPI designated school code established when the district requested the school structure set up.

Program Code: Select program codes using three digits (e.g., 100 -160 must be rolled up to 1XX and 210 - 270 would be rolled-up to 2XX).

Function Code: The only function codes shown on the Schedule of Revenue, Expenditures and Changes in Fund Balance should be: 1XXX, 21XX, 221X, 222X, 23XX, 24XX, 25XX, 258X, 26XX, 27XX, 31XX, 32XX, 33XX, 34XX, 35XX, 3XXX, 4XXX, 51XX, 52XX, 61XX, 62XX, 63XX, 9999, XXXX.

Expenditure Object Code: Report most expenditure object codes rolled up to the first digit (e.g., 513 and 518 must be reported together using 5XX.) The 800 and 900 object levels cannot be rolled up and must be shown as 810- 999.

Exceptions: Student Extracurricular Activities Fund (84) revenue is shown as _84- 1XXX and Student Extracurricular Activities Fund (84) expenditure is shown as _84- 7XX-3XXX-XXX. Retirement Fund (14) expenditure is shown as _14-999-9999-2XX when reported using the undistributed method only.

PROJECT REPORTER CODES

PROJECT REPORTER (PRC): Enter a unique, three-digit project reporter code. (e.g. 001) Do NOT use 000 or 900-999.

Title: Select a project name from the dropdown list OR enter the grant or project name. (e.g., IDEA-B). Selecting from the dropdown list will pre-fill the Title, CFDA Number and Type, if applicable.

Type: Select Federal, State or Local from the dropdown list.
Projects from the prior year are automatically selected to use again this year.

Project Number: Enter the complete grant or project number, as assigned by the OPI or the grantor. (e.g., 5609657701)

Catalog of Federal Domestic Assistance Number (CFDA Number): Federal Grants Obtain the CFDA Number from Federal Assistance Website <https://beta.sam.gov/>. State and Local projects (funds) will not have a CFDA Number

Grants: The district must assign a unique three-digit project reporter code to the revenue and expenditure accounts used for each local, state and federal grant. Numbers greater than 899 are reserved for the OPI's use and assignment. Generally, grants are expenditure-driven. Total revenues should equal total expenditures for each grant. Refer to section 5-0200 of the SAM.

Budget Amendments: The OPI assigns a project reporter code to each budget amendment (910-919) to be used to report budget amendment expenditures. List the budget amendment line item expenditures separately from other line item expenditures using the assigned project reporter code to distinguish them. It is necessary to identify budget amendment expenditures using the assigned project reporter code to ensure budget amendment expenditures are properly reported. If the assigned project reporter code is not used to identify the budget amendment expenditures, it will appear as though the budget amendment was not spent. Refer to section 3- 0500 and 3-0600 Project

Reporter Codes in the SAM. If you have any questions regarding budget amendments, contact Nica Merala at nmerala@mt.gov, or (406) 444-4401.

Cash and/or Budget Transfers: The OPI assigns a project reporter code to each cash or cash and budget transfer (950 - 959) and creates a 9710-revenue code in the fund where the cash (if a cash or cash and budget transfer) was transferred to. An expenditure record is created in the fund from where the cash is transferred using the 999-9999-971 expenditure code. If you have any questions, contact Keri Ludwig, at keri.ludwig@mt.gov or (406) 444-0783.

EMPLOYEE BENEFITS

Health Insurance Benefits: Distribute and report health insurance benefits to all appropriate funds in all appropriate expenditure programs and functions. Do not report health insurance benefits using the undistributed method.

The Undistributed Method will not work if any 2XX line items have been entered manually. All 1XX salaries must first be entered then the undistributed method must be run for workers' compensation. If you do not do these as your first actions, the distribution will be incorrect.

Workers' Compensation / Payroll Tax Benefits: Report workers' compensation/payroll benefits in all appropriate funds using ONLY one of the following options. If workers' compensation benefits were partially allocated to functions this year and partially not allocated, use option A.

Option A: Distributed (Preferred Method)

Add expenditures for health insurance, workers' compensation, and other payroll benefits together for each program and function level (e.g., 1XXX, 21XX, etc.) using object 2XX (Personal Services - Benefits), in the General Fund (01) Schedule of Revenues, Expenditures and Changes in Fund Balance.

Option B: Undistributed

After entering all salary line items for a fund, enter the combined total of Workers' Compensation expenditures for all functions on the line, _01 999 9999 2XX-undistributed employee benefits in the General Fund (01) Schedule of Revenues, Expenditures and Changes in Fund Balance. Do not use more than one account.

Retirement Fund (14):

Report using only one of the options below. If retirement benefits were partially allocated to functions this year and partially not allocated, use option A.

Option A: Distributed (Preferred Method)

Enter the retirement benefit expenditures for each program and function level. There should be more than two accounts under Option A (e.g., 1XXX, 21XX, 26XX, etc.).

Option B: Undistributed

Enter the combined total of retirement benefit expenditures for all functions (except resource transfers) using one or both of the following expenditure accounts as necessary:

_14 999 9999 2XX Employee Benefits

_14 280 6200 920 Resource Transfers

Do not use any expenditure accounts other than the two listed above.

For the purposes of determining Federal Maintenance of Effort (MOE), indirect cost rates, and school statistics, MAEFAIRS will prorate undistributed employee benefits to the corresponding program and function based on the salary amount reported in each program and function for that fund. Undistributed retirement benefits will be distributed based on total salaries reported in each program, function, and project reporter code for all funds of the district.

Q: What if I did not have all my salaries entered before entering 999-9999-2XX amount?

A: Enter a zero in the 999-9999-2XX account and distribute again. This will change all the amounts back to zero. Next double check to make sure all the salaries have been entered, add back health insurance expenditures by function, and then redistribute the workers' compensation or retirement benefits.

Miscellaneous Programs Fund (15):

Generally, grants are expenditure driven. Total revenues for each grant should equal total expenditures. Refer to section 5-0200 of the SAM.

Use appropriate project reporter codes for each revenue and expenditure item to identify the grant they represent. Make sure the revenues and expenditures are entered for each grant in the Miscellaneous Programs Fund (15) for all project reporter codes.

Agency Funds:

Do not include Miscellaneous Agency Funds A-E (90 through 94). Agency funds do not have expenditures and revenues when reported in accordance with GAAP. Revenue and expenditures may be used in Agency Funds for management purposes but are not reported on the TFS.

NOTE: Districts are required to report detailed expenditures (but those expenditures are included in the expenditures report of the TFS as well). Report Detail Expenditures under Step 8 of the TFS. Select Fund, Program, Function, Object and enter the amount for that selection.

Schedule of Changes in Fixed Assets (SCFA)

NOTE: School districts that have a yellowbook or federal audit must report fixed assets on this schedule. School districts that have a review once every four years are not required to report this information on the TFS, but are still required to maintain a listing of fixed assets and make it available to the auditor.

ACTIVITY TYPE:

The SCFA reports governmental and business-type activities in separate sections.

Governmental Activities usually include the General Fund (01), Special Revenue Funds (10-44), Debt Service Funds (50-59), Capital Projects Funds (60-69), Permanent Funds (45-49), and Internal Service Funds (73-79). These funds are generally financed through taxes, intergovernmental revenues, and other non-exchange revenues.

Business-Type Activities are usually reported in Enterprise Funds (70-72).

These funds are financed in whole or in part by fees charged to external parties for goods and services.

Assets:

- ☐ Land
- ☐ Land Improvements Buildings
- ☐ Machinery and Equipment Construction in Progress
- ☐ Improvement Accumulation
- ☐ Building Accumulation
- ☐ Machinery and Equipment Accumulation

Enter the beginning balance (beginning of the year, at cost), current year additions (at cost) and current year removals (at cost) for each category of asset.

Choose the accumulated depreciation category from the following list:

- ☐ Improvement Accumulated Depreciation (related to land improvements)
- ☐ Building Accumulated Depreciation
- ☐ Machinery and Equipment Accumulated Depreciation

Enter the beginning balance of depreciation accumulated to date as of the beginning of the year, the accumulated depreciation for current year additions as of the date added, and the accumulated depreciation for any current year removals as of the date the items were removed.

DEPRECIATION

Use this screen to report the amount of depreciation during the current reporting year. Current year depreciation is reported by function for governmental and/or business-type activities. Depreciation on assets that can be allocated to a specific function(s) should be reported using that function code or

codes. For example, the current year depreciation for a bus barn would normally be reported under '27XX Transportation.' Depreciation on assets that cannot be easily allocated to a specific function may be reported under 'Unallocated.' For example, depreciation of a school building would normally be reported under 'Unallocated.'

NOTE: Ending balance and totals are computed by MAEFAIRS. MAEFAIRS will bring forward the previous year's ending balances as beginning balances. Acquisition cost for each category is listed first. Accumulated depreciation for Land Improvements, Buildings, and Machinery and Equipment is listed next (Land and Construction Work in Progress are not depreciated).

Schedule of Changes in Long-Term Liabilities

(SCLTL) NOTE: School districts that have a yellowbook or federal audit must report long-term liabilities on the SCLTL schedule.

Financial review once every four years are not required to report this information on the TFS, but are still required to maintain a listing of long-term liabilities and make it available to the auditor.

The SCLTL reports governmental and business-type activities in separate sections.

Governmental Activities are usually reported in the General Fund (01), Special Revenue Funds (10-44), Debt Service Funds (50-59), Capital Projects Funds (60-69), Permanent Funds (45-49), and Internal Service Funds (73-79). These funds are generally financed through taxes, intergovernmental revenues and other non-exchange revenues.

Business-type Activities are usually reported in the Enterprise Funds (70-72). These funds are financed in whole or in part by fees charged to external parties for goods and services.

School districts will report beginning balance, new debt and other additions, principal payments, refunding and other reductions, and current portion (due in the next fiscal year) for long-term debt in the following categories:

Long-Term Liabilities

- ☐ Capital Leases
- ☐ Compensated Absences
- ☐ Intercap Loan Payable
- ☐ Special Improvements (SIDs)
- ☐ Other long-term loans
- ☐ Other Post-Employment Benefits (OPEB)
- ☐ Net Pension Liabilities

NOTE: General Obligation Bond information will be pre-filled by MAEFAIRS. Districts with outstanding bonds payable should check the pre-filled information and contact the OPI as soon as possible if it is incorrect.

Ending balance, totals and long-term portion (due beyond the next fiscal year) will be computed by MAEFAIRS. MAEFAIRS will bring forward the previous year's ending balances as beginning balances for the current year.

Suggested backup documentation for each category is listed as follows:

- ☐ Capital Leases-lease payment schedule
- ☐ Compensated Absences-compensated absences worksheet
- ☐ Intercap Loan Payable-Intercap loan payment schedule
- ☐ Special Improvements (SIDs)-SID payment schedule

- ☐ Other Post-Employment Benefits (OPEB)
- ☐ Net Pension Liabilities (year 1 use the addition only)

NOTE: Report only principal balances, payments, etc. Do not include the interest portion of the payment schedule.

Current Portion of Long-Term Debt: The current portion is the principal amount that is due in the next fiscal year. For debt that is documented with a payment schedule (see above suggested backup documentation), this amount should be obtained by looking at the payment date(s) and determining how much principal is due in the next fiscal year. For Compensated Absences, the OPI suggests one of two options for reporting current portion:

1. Report zero; or
2. Determine if the district has been notified of retirements and/or terminations that will take place in the next fiscal year (for example, teachers who take an early retirement incentive). Estimate the portion of compensated absences for the employee(s) and report the total as current portion.

GRANT CODING

LIST OF COMMON EXPENDITURE DRIVEN GRANTS

The following common grants and programs are required to be reported on the Trustees Financial Summary with revenues and expenditures reported equally for the year. If cash received exceeds disbursements on 6/30, reduce revenue to equal expenditures and report the excess balance as Deferred Inflows, or as a liability (Due to Other Governments) if the unused dollars must be returned to the grantor. If cash received is less than disbursements, report the un-received, but claimed, amount as a receivable (Due from Other Governments).
